

REMARKS AND INTERVIEW SUMMARY

Applicants have carefully studied the outstanding Office Action. The present amendment is intended to place the application in condition for allowance and is believed to overcome all of the objections and rejections made by the Examiner. Favorable reconsideration and allowance of the application are respectfully requested.

Applicants have canceled claims **103, 104** and **113** without prejudice, and amended claims **63, 82, 99** and **110** to more properly claim the present invention. No new matter has been added. Claims **63, 64, 68, 78, 82, 93** and **97 – 102, 105 – 112, 114 and 115** are presented for examination.

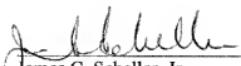

This amendment is made in view of the discussions with the Examiner. Applicant discussed these amendments with the Examiner, and it is Applicant's understanding that the claims, as amended, would be allowable. These amendments incorporate the limitations of dependent claims **103** and **104** into each of the independent claims **63** and **82**.

For the foregoing reasons, applicants respectfully submit that the applicable objections and rejections have been overcome and that the claims are in condition for allowance.
